HOWARD'S CELEBRATED MACHINES

Howard's Self-Acting Horse Rakes, Howard's New Patent Simplex Mower, Howard's New Patent Simplex Reaper.

The above were the first Self-Acting Horse
Rakes which secured public favour, and owing
to their extraordinary success various attempts
have been made to imitate them, but J. & F.
Howard's simple principle—Patented—is
so instantaneous in action, that all the con-
trivances introduced by others for effecting
the same object are in comparison com-
plicated expedients.

J. & F. Howard's Simplex Mower is one
of the highest machines ever produced. It is
from its construction remarkably strong, and
has been found to be capable not only of cut-
ting the heaviest crops, but of standing the
roughest usage. J. & F. Howard's patented
principle of *even paring* is adopted. This
gearing, among other advantages, is light in
weight of great strength, and not liable, as
other gearing, to get clogged with the cut
grass, there being no cog to catch it, and no
shield therefore is required.

J. & F. Howard's Simplex Reaper is in
every way constructed to meet the demand
for a light but strong Reaper. It has a large
travelling wheel, and having the fewest pos-
sible wearing parts, its value, especially where
repairs are difficult to obtain, can hardly be
overestimated. The experience of several har-
vests with large numbers of these Machines,
both at home and abroad, and the distinguish-
ed place they have obtained in public trial
fields have fully demonstrated their superi-
ority.

With two Knives, Spring Seat, and
Tool Box, containing all re-
quisites for use in the field,
weight 10 cwt.....

With two Knives, Seat and Tool Box,
containing all requisites for use in
the field, weight 10 cwt.....

The above Machines kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague,
Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CATTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne
was undoubtedly the inventor of Chlorodyne; that the story of the defendant,
Freeman, being the inventor was deliberately untrue, which he regretted had been
brought before the public. The learned Judge also stated that Dr. J. Collis Browne
was the discoverer of Chlorodyne; that they prescribed it largely, and mean no
other than Dr. Browne's—See Times, July 12th 1884.

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms
the system, restores the deranged functions, and stimulates healthy action of the
secretions of the body, without creating any of those unpleasant results attending
the use of opium. Old and young may take it at all hours and times when requi-
red. Thousands of persons testify to its marvellous good effects and wonderful
cure, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and
valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bron-
chitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—
Diphtheria, Fever, Croup, &c.

CHLORODYNE acts as a Diuretic, and is the only specific in Cholera
and Dysentery.

CHLORODYNE effectually cures all attacks of Epilepsy, Hysteria, Palpi-
tations, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer,
Toothache, Menstrual, &c.

From Syme & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 8th
1880. To J. T. Davenport, Esq., 35, Great Russell Street, Bloomsbury, London.

"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread
reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has
earned for itself, not only in this country, but over the East, where we owe to
its utility, we much question whether a better is imported into the country, and
we shall be glad to hear of its finding a place in every Anglo-Indian home. The other
brands, we are happy to say, are now relegated to the native bazaars, and, judging
from their sale, we fancy their owners will be but evanescent. We could multi-
ply instances of testimony of the extraordinary efficacy of Dr. Collis Browne's
Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting
of Pregnancy, and as a general sedative, that have occurred under our personal
observation many times. In Cholera, however, and even in the most
terrible forms of Cholera itself, we have witnessed its surprisingly controlling power.
We have never used any other form of this medicine than Collis Browne's, from a
firm conviction that it is decidedly the best, and also from a sense of duty we owe to
the profession and the public, as we are of opinion that the substitution of any other
brand would be a disservice to the community. We are, Sir, faithfully yours, Syme & Co., Members
of the Pharm. Soc. of Great Britain. His Excellency the Viceroy's Chemist."

Extract from the General Board of Health, London, as to its efficacy in
Cholera.—"So strongly are we convinced of the immense value of this remedy that
we cannot too forcibly urge the necessity of adopting it in all cases."

CATTION.—None genuine without the words "Dr. J. Collis Browne" on the
Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An
American Editor declares that "out West"
eggs are fetching two-pence each, and that
the hens do not care about business even at
this price. We fancy this must be the case
"West", or surely our American cousins would
be able to have resorted to the use of "Harris's"
Gold Medal Mustard Powder, which renders
the household pest city independent of the
country fowl, since it produces the most de-
licious mustard, blanc-manges, &c. at half
the usual cost, and in much less time. The
hens had better be "cautious about" sitting,
or some enterprising storekeeper will intro-
duce this household friend, and ruin their trade
for ever. There is no special "laying season"
for "Harris's" Mustard Powder, "one can
keep it always on hand in the tin, and it
keeps and tins in which it is sold. Can be
had of all Storekeepers in the Colonies, &c.

RUSTON PROCTOR Y CIA

As the season is advancing we call attention to our Thrashers, they have
extra Screening and Biddle Surface, larger than any other system. They are
also provided with a new design of snuffler for cleaning dirty wheat.
We have also a stock of Combined Mowers and Reapers, Horse Gears, double
and single, Flour Mills, Mangle-shelling Machines, &c.
